| Known Species Location | USF&W Steelhead Critical Habitat ² | Gaviota Coast Plan Boundary |
| Specific Habitat Area | Other P&D Species Records ³ | Rural Region Boundary |
| Nonspecific Habitat Area | Kelp beds in 2004 ⁴ | Los Padres National Forest Boundary |
| General Habitat Area | Monarch Butterfly ⁵ | Vandenberg Air Force Base |

NOTE: There are many likely locations of Monarch Butterfly Habitat in the Hollister Ranch area, however, due to restricted access, these locations have not all been visited to determine their status. Surveys of appropriate habitat (e.g. groves, riparian areas) should be conducted before any disturbance of trees is allowed.
