**Agenda Item #3:** In Meeting Assignment – Sections I and IV –Discuss proposed chapters and provide comments to staff.

- Before going through the assigned sections, page by page, Erika discussed several topics that have been of interest to the committee:
  - Background Information: Succinct introduction in the plan itself, with extensive background information (essentially the existing conditions) as an Appendix. The background section will also contain a list of abbreviations and a glossary.
  - Definition of Infill: General concept is to build within the urban boundaries and, more specifically, to build to extant zoning.
  - Table of Contents: Committee members have expressed their preference for Environmental Considerations to be at the beginning of the plan, rather than in the last section, where it currently resides. Erika assured us that Environmental Considerations, as they apply to land use, will be described in the introduction to the Land Use sections. It will tell the reader what is important in the document.
- Considered Section I – comments recorded by staff
- Considered Section IV – comments recorded by staff
