Rosie: I attended last night's LAPAC meeting and would like to express my opinion on what was presented.

I truly loved the option and color of either the stamped concrete or pavers. Keeping it at a minimum of white lines would be my choice. I was impressed with how this looked when shown at the Post Office crossing. I also thought the idea of having a grassy area at the flag pole was an excellent idea, with parking in that area.

The meeting was very productive and well presented and I look forward to seeing the results at the next meeting.

Thank You, Mary Caldera

Hi Rosie, I attended the meeting on 7/28 pertaining to Los Alamos crosswalks, underpass, etc. I thought you guys had some great ideas. Sometimes I feel not enough focus gets put on safety of our residence, seniors and kids when addressing what we want in the town.

I live on the other side of the freeway on Price Ranch Rd near Lucas & Lewellan vineyard. My main focus at these meeting is the under pass of the freeway trying to make it safer. Also putting in a cross walk at Bell & the road going under the overpass(not sure if that's 135/main) where there is a 4 way sort of intersection. My kids will be starting high school in 2015 and the bus drops off at the Catholic church, so when my kids or kids living in the trailer park have to walk home they could very well be crossing Bell St right there then walking under the freeway to get home. There are stop signs except Bell turning left to get on the freeway but no crosswalks. I would love to see a crosswalk there, something that stands out that people will see when someone is crossing. Also there is the off ramp for the south bound side of the freeway then it drops right onto the overpass road, could there be a Yield sign there since people cross there or ride there bikes there...just so they stop/slow down and look.

My main concern are my kids and others safety.

My opinion on what I would like to see in this town, I really liked the stamped crosswalks or even the inlaid ones. I feel they would look great while keeping with the town but something that maybe lights up to let cars/trucks know that someone is crossing the road for the crosswalks. I also thought the picture of the narrowing of Bell St with the bicycle lanes and the parking made it look great. But I would also like to see the bike lanes done in the stamped or inland brick but I just along Bell. I don't really feel we need off street parking on our side streets, but the idea by the flag pole I thought was a great idea and the grass around the flag pole also.

Also to add to what was said in the meeting is that people do fly off that freeway and my kids don't even want to ride their bike or walk to town since they have to use that part of the road going into town. It's just a dangerous area.

I hope this helps, but again I thought you guys had some great ideas. I wish more families with children would attend these meetings to express their concerns for their children safety, just seems the 2 meetings I attended is mostly made up with the older people in town.

Thank you

Kathy Dantzer
