

LOS ALAMOS PEDESTRIAN CIRCULATION AND PARKING PLAN

Overall Project Objectives

- Create Safe Routes to School for the town's children
- Support and sustain a vibrant and walkable downtown with adequate parking for residents and visitors
- Include participation from all different groups and perspectives from the community
- Create conceptual design sketches consistent with the Los Alamos Bell Street Design Guidelines and the Los Alamos western town theme
- Reflect issues and creative solutions identified by the community
- Use the plan as guidance for seeking funds for construction of community identified projects for the town to realize safe neighborhoods, economic health, and civic benefits

Meeting Ground Rules

- Be respectful and considerate in your comments and interaction
- Maintain the priority of listening to residents and business owners in Los Alamos
- Recognize that each person participating is here because they care about the community
- Focus comments on our topic of improvements for walking, biking and parking in Los Alamos
- One person speaks at a time and others listen respectfully
- Make direct and specific comments about what you would like to see in the plan and why
- Direct comments to the facilitator, not each other
